Vegetatio **93**: 173–174, 1991.

Volume contents

Devall, M. S., J. Myers Grender & J. Koretz, Dendroecological analysis of a longleaf pine *Pinus palustris* forest in Mississippi 1
Cho, D.-S. & R. E. J. Boerner, Canopy disturbance patterns and regeneration of *Quercus* species in two Ohio old-growth forests 9
Ben-Shahar, R., Successional patterns of woody plants in catchment areas in a semi-arid region 19
Gignac, L. D., Vitt, D. H. & S. E. Bayley, Bryophyte response surfaces along ecological and climatic gradients 29
Hansen, P. A., Improved interpretation of soil – macrofungal relations in south Swedish beech forests using two complementary regression analyses 47
Nieppola, J. J. & T. J. Carleton, Relations between understory vegetation, site productivity, and environmental factors in *Pinus sylvestris* L. stands in southern Finland 57
